

# Introduction To Card Tricks

Length: 1-1.5hrs

Delivery modes: Onsite & Virtual Classes; Pre-recorded sessions.

Details: Magicians continuously demonstrate in very engaging ways one of the most basic principles of brain function — how the brain constructs a subjective reality using assumptions based on relatively little and ambiguous information. [Excerpt [Science Direct](#)]

The aim of this session is to boost the cognitive function by sharing some of the tricks of the trade, using

- The principles of neuroscience
- Mathematical concepts
- Basic card manipulation techniques.
