

Virtual Musical Bingo

Length: 30mins-2hrs.

Number of people: Up to 500

An interactive and energetic virtual party session designed to strengthen team connectedness, and increase emotional wellbeing. This experience is just like bingo, but with snippets of music instead of numbers being called out.

Structure:

Sessions are delivered by a host and a live DJ who will be spinning some records to get the vibes going.

There are a number of themed rounds such as Disco, 80's/90's Pop, and Rock. Players are given digital cards with songs marked on them. Individuals/teams work to guess the songs. The first to have a line of correct answers wins the game. There is a leaderboard with a grand winner at the end of the experience.

This is a great session for Friday Fun, Mental Health Days, and Employee Appreciation incentives.
